Food Processing Industry in India

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year. In India, the food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry.

The food industry, which is currently valued at US\$ 39.71 billion!, is expected to grow at a Compounded Annual Growth Rate (CAGR) of 11 per cent to US\$ 65.4 billion. Food and grocery account for around 31 per cent of India's consumption basket.

Accounting for about 32 per cent of the country's total food market, The Government of India has been instrumental in the growth and development of the food processing industry. The government through the Ministry of Food Processing Industries (MoFPI) is making all efforts to encourage investments in the business. It has approved proposals for joint ventures (JV), foreign collaborations, industrial licenses, and 100 per cent export oriented units.

Market Size

The Indian food and grocery market is the world's sixth largest, with retail contributing 70 per cent of the sales. The Indian food retail market is expected to reach Rs 61 lakh crore (US\$ 915 billion) by 2020.

The Indian food processing industry accounts for 32 per cent of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 14 per cent of manufacturing Gross Domestic Product (GDP), 13 per cent of India's exports and six per cent of total industrial investment. Indian food service industry is expected to reach US\$ 78 billion by 2018. The Indian gourmet food market is currently valued at US\$ 1.3 billion and is growing at a Compound Annual Growth Rate (CAGR) of 20 per cent. India's organic food market is expected to increase by three times by 2020##.

The online food ordering business in India is in its nascent stage, but witnessing exponential growth. The organised food business in India is worth US\$ 48 billion, of which food delivery is valued at US\$ 15 billion. With online food delivery players like FoodPanda, Zomato, TinyOwl and Swiggy building scale through partnerships, the organised food business has a huge potential and a promising future. The online food delivery industry grew at 150 per cent year-on-year with an estimated Gross Merchandise Value (GMV) of US\$ 300 million .

Cashew Industry in India

Cashew (*Anacardium occidentale* L.), a tree native of Eastern Brazil, was introduced in India by the Portuguese nearly five centuries ago. In India, cashew was first introduced in Goa, from where it spread to other parts of the country. Initially, it found use in soil binding to check erosion. Commercial cultivation began in the early 1960s and, over the years, cashew became a crop with high economic value and attained the status of an export-oriented commodity, earning considerable foreign exchange for the country.

KEY MARKETS AND EXPORT DESTINATIONS

- India is the largest cashew processor in the world (25 lt of raw cashew nut per annum)
- Export of cashewnut shell liquid/Cardanol from India stood at 3,394 tonnes, valued at Rs 13.01 crore (US\$ 2.01 million) during fiscal year, while exports of cashew kernels stood at 81,110 MT (provisional), valued at Rs 5,077 crore (US\$ 786.59 million).

- Export earnings from cashew and allied products stood at US\$ 765 million.
- India accounts for about 65 per cent of global cashew exports.
- India exports cashew kernels to over 60 countries. Its major markets are the US, the Netherlands, Japan, Spain, France, Germany, the UK as well as Middle East countries such as the UAE and Saudi Arabia.
- The US is the largest market for Indian cashew kernels, followed by the UAE and the Netherlands, while Indian Cashew nut shell liquid is largely exported to South Korea, followed by China and the US.

Agriculture Sector in India

Agriculture plays a vital role in India's economy. Over 58 per cent of the rural households depend on agriculture as their principal means of livelihood. Agriculture, along with fisheries and forestry, is one of the largest contributors to the Gross Domestic Product (GDP). As per the 2nd advance estimates by the Central Statistics Office (CSO), the share of agriculture and allied sectors (including agriculture, livestock, forestry and fishery) is expected to be 17.3 per cent of the Gross Value Added (GVA).

India is the largest producer, consumer and exporter of spices and spice products. India's fruit production has grown faster than vegetables, making it the second largest fruit producer in the world. India's horticulture output, is estimated to be 287.3 million tonnes (MT) in after the first advance estimate. It ranks third in farm and agriculture outputs. Agricultural export constitutes 10 per cent of the country's exports and is the fourth-largest exported principal commodity. The agro industry in India is divided into several sub segments such as canned, dairy, processed, frozen food to fisheries, meat, poultry, and food grains.

Market Size

India's GDP is expected to grow at 7.1 per cent, led by growth in private consumption, while agriculture GDP is expected to grow above-trend at 4.1 per cent to Rs 1.11 trillion (US\$ 1,640 billion). \$ As per the 2nd Advance Estimates, India's food grain production is expected to be 271.98 MT in. Production of pulses is estimated at 22.14 MT.

India's agrarian culture and varied regional climate have significantly contributed to the global food basket.

Indian curries, mangoes, snacks and spices are known for their excellent quality across the globe. Globally, India leads the following food segments:

- India is the second largest producer of fruits in the world and accounts for 10 per cent of the world fruit production with first rank in the production of bananas (30.43 million tonnes 22.94 per cent), papayas (6.1 million tonnes, 44.03 per cent) and mangoes including mangosteens, and guavas (19.21 million tonnes, 37.57 per cent)
- India is the largest milk producer in the world (155.5 million tonnes)
- India has the largest buffalo population (111.0 million heads)
- India is the largest pulses producer in the world (22.14 million tonnes (2nd AE 2016-17), 25.4 per cent)
- Among vegetables, India ranks second in world (168.59 million tonnes, 10.7 per cent, and first in the production of Okra (6.4 million tonnes, 73.6 per cent)

Export Highlights

Exports of agricultural and processed food products totalled US\$ 14.275 billion. During the period, export of cereals and animal products accounted for 37.60 per cent of the total exports, followed by livestock products (27.58 per cent), other processed foods (17.92 per cent), fresh fruits and vegetables (9.56 per cent), processed fruits and vegetables (6.38 per cent) and floriculture and seeds (0.96 per cent)

Indian agricultural/horticultural and processed foods are exported to more than 100 countries/regions; chief among them are the Middle East, Southeast Asia, SAARC countries, the EU and the US.

AGRICULTURAL AND PROCESSED FOOD PRODUCTS EXPORT DEVELOPMENT AUTHORITY

The Agricultural and Processed Food Products Export Development Authority (APEDA) plays a significant role in tapping India's agricultural strengths and works towards expanding the export potential of Indian agricultural and food products.

Exports of agricultural and processed food products totaled US\$ 14.275 billion.
